

VADE MECUM:

Or, the Necessary

Pocket Companion.

CONTAINING,

- I. *Sir Samuel Morland's Perpetual Almanack*, readily shewing the Day of the Month, and *Moveable Feasts and Terms*, for any Year past, present, or to come; *curiously graved in Copper*; with *Tables proper thereto*.
- II. The *Years of each King's Reign* from the *Norman Conquest*, compar'd with the *Years of Christ*.
- III. Directions for every Month in the Year, what is to be done in the *Orchard*, *Vegetable* and *Flower-Gardens*.
- IV. The Reduction of *Weights, Measures and Coins*; wherein is a *Table of the Affine of Bread*.
- V. A Table wherein any *Sum of Money*, *Half-pence, Pence, or Shillings*, are ready cast up; of great use to all *Traders*.
- VI. The *Interest and Rebate*, *Forbearance, Discompt, and Annuities*.
- VII. The *Rates of Post-Letters*, both *In-land and Out-land*.
- VIII. An Account of the *Pay of Post*.
- IX. The *Principal Roads in England*.
- X. The *Names of the Counties, Cities, and Borough-Towns* in *England and Wales*, with the *Number of Knights, Citizens, and Burgesses* chosen therein to serve in *Parliament*.
- XI. The usual and authorized *Rates or Fares of Coach-men, Carmen and Water-men*.
- XII. *Tables for Casting up Nobles, Marks, Guineas and Broad Gold*.

The *Seventh Edition*: To which is added, *Interest in Epitome; or Tables*, by a *new Method* than any yet published, from *one Pound to 10 Millions*, at *6, 4, and 3 per Cent.* By *ISRAEL FALCONER*, at the *Bank of England*.

L O N D O N: Printed for *Nathaniel Bowdler*, at the *Head of the Strand*, in *Cornhill*, 1741.

THEIR PETITION

AND THAT THEY

THE P R E F A C E.

MY Profession obliging me to be Conversant with *Mathematical* Books, (the Printing whereof, and *Music*, has been my chiefest Employment) I have observ'd two things many times the cause why Books of this nature appear abroad not so Correct as they should be; either, 1. Because they are too much hasten'd from the Press, and not time enough allow'd for the strict and deliberate examination of them; which in all Books ought to be done, especially in these, for as much as one false Figure in a *Mathematical* Book may prove a greater fault than a whole word mistaken in Books of another kind. Or, 2. Because Persons take Tables upon trust without trying them, and with them transcribe their Errors, if not encrease them. Both these I have carefully avoided, so that I have reason to believe (and I think I may say it without vanity) there never were Tables more exactly Printed than in this Book.

The *Perpetual Almanack* was the Ingenious Invention of that great Improver of Art, and Encourager of Artists, Sir *Samuel Morland*.

In the former Editions of this Book, I only inserted (the first) three Tables for finding the *Day* of the *Month*, but in this I have added five other Tables for finding the *Movable Feasts* and *Terms* for any Year past, present, or to come, and a sixth for the *Moon's Place*, all invented and contrived by the same Author.

I have

The Preface.

I have also in this Edition added the *Principal Fairs in England and Wales*, a Table of the *Sun's Place*, Monthly Directions for *Gardeners*, a Table of the *Affize of Bread*, a Comparison of *Foreign Weights and Measures* with the *English*, by the late famous Sir *Jonas Moore Senior*; the *Reduction of English Money*, with the *Weight and Value* of divers *Foreign Gold and Silver Coins*; enlarg'd the Table for ready casting up of *Money*, as likewise those for *Interest*, *Rebate*, and *Annuities*; and whereas in the former Impressions the Parts of a *Penny* were expressed in *Decimal Fractions*, I have reduced them into *Farthings*, which though they cannot be so exact, yet are more easie to be understood, and do not differ from the truth half a *Farthing*; as also a Table for the Casting up *Nobles*, and *Marks*, from one to five *Thousand*, likewise for *Guineas* and *Broad Gold*. The *Roads* which were very deficient, are now compleat, and put in a better method than any yet extant, the *County*, and *Hundred*, *Lath*, *Ward*, or *Wapentake*, being added, whereby may be seen through what *Counties* each *Road* lies, and through what *Divisions* of such *Counties*; and lastly, I have added a Catalogue of all the *Counties*, *Cities*, *Corporations* and *Borough Towns* in *England* and *Wales*, with the Number of *Knights*, *Citizens*, and *Burgesses*, chosen in each to serve in *Parliament*.

To conclude, you will find nothing in this Book but what is very useful; according to the Truth of which, you may approve or dislike the Endeavours of

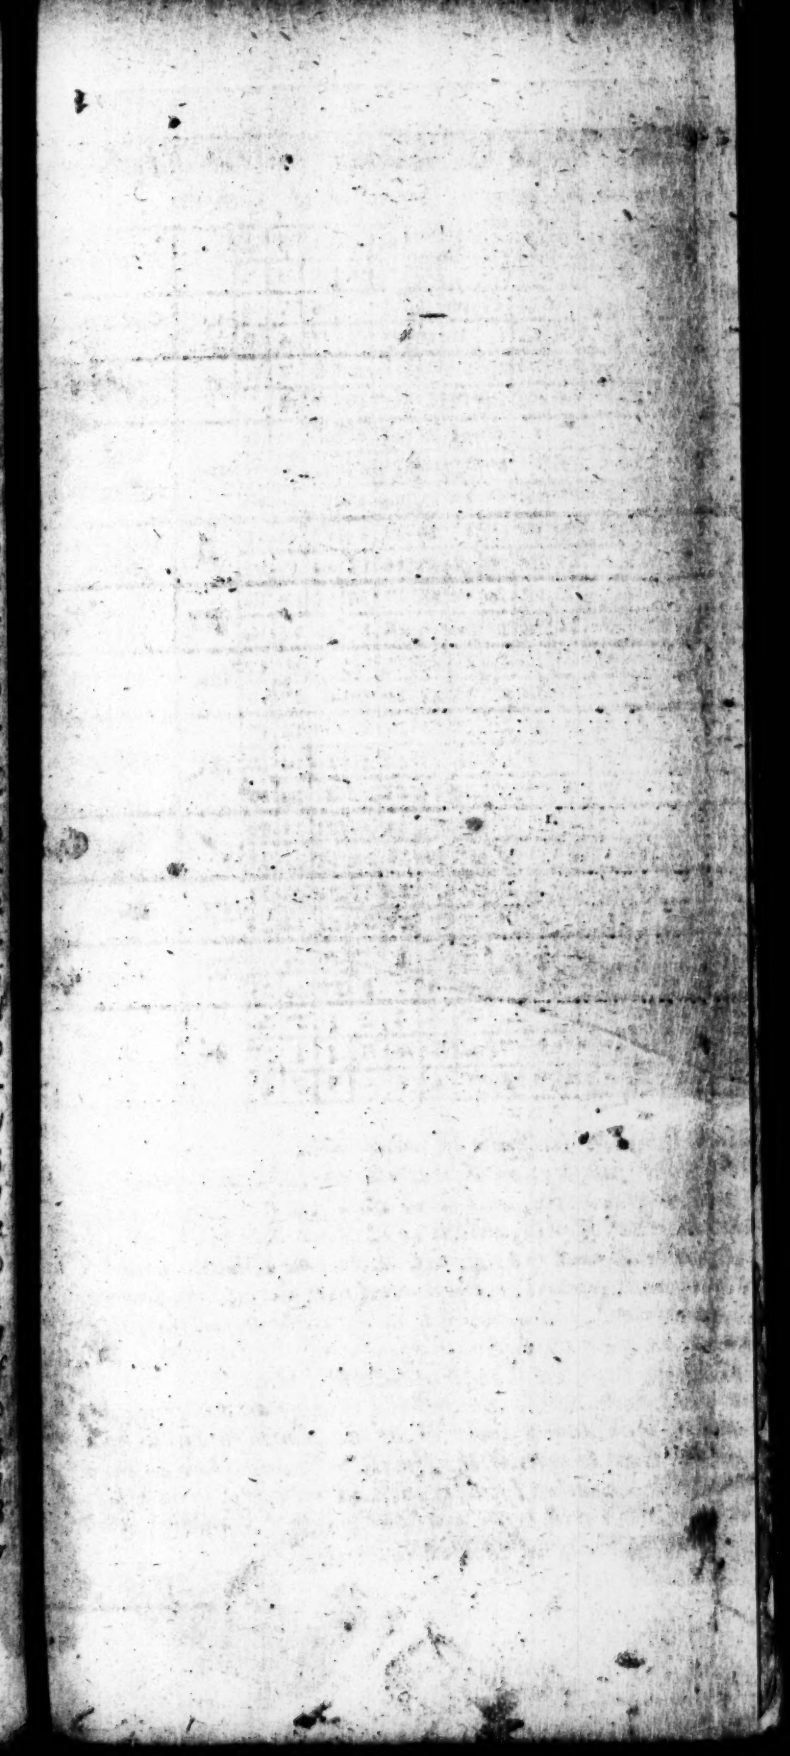

Your Servant,
JOHN PLAYFORD.

Example 1. What Sign will the Moon be in on the Fifth of May, 1684?

First, seek for May in the first Column, and from that guide your Eye to 1 in the Table, and either above or beneath seek for 5 the day of the Month, which you will find beneath, and from that 5 direct your Eye to the Number that stands against it in the Column under D. of the Month, which is 12, bear this in Memory. Then by the Table for Primes find the Prime for 1694, which you will find to be 4; seek that in the Column under Gold Num. and guide your Eye from thence to 1 in the Table, and upward or downward seek for 12, (the Number you bore in memory) which you will find by seeking downward, and against it in the right hand Margin you have Capricorn, or rather the beginning of Aquarius, which governs the Legs, and answers the Question.

Example 2. What Sign will the Moon be in on the 13th of October, 1694?

Having found October in the first Column, over the 1 that stands against it I find 13 the day of the Month, and from thence direct my Eye to the left hand, and in the Column under D. of the Month find 9 (to be born in memory:) Then seeking for the Prime of the of the Year to which the Question belongs (here 4) under Gold Num. and from thence guiding my Eye to 1 in the Table, under it I find 9 born in memory, from which directing my Eye to the right hand Margin, I find the Moon will be in the latter part of Sagittary, which governs the Thighs, or beginning of Capricorn, which governs the Knees.

Sir SAMUEL MORLAND'S 1 Perpetual Almanack.

A Table shewing the Dominicall Letter from
the first year of Our Lord to the year 3400
& may be continued for ever.

The even Hundreds are to be found at the top
of the Table, having their Dominical Letters over
them, and are all Leap-years; as 700, 1400, 2100
and 2800, have DC. The Parts of an Hundred are
to be found in the side, and have then Dominical
Letters against them in the first Column as 28, 56,
84, have DC; 1, 29, 57, 85, B, 2, 30, 58, 86, A, &c.
To find the Dominical Letters for even Hundreds and
Parts, the Rule is; Seek the Hundreds in the top, and
the Parts in the side, and in the Angle of Meeting is the
Dominical Letter, or Letters, so the Dom. Letter for 1682
is A, for 1683 G, 1684 FE, it being Leap-year F be-
ing used only till Feb. 25. and E all the rest of y^e Year.

A

<p>A Table Shewing by the help of y^e Dominical Letter what day of the week any Month of the year begins for ever.</p>							
	A	B	C	D	E	F	G

Dec 31	Fryd	Thur	Wedn	Tuesd	Mund	Sund	Satur

Having by the last Table found the Dominical Letter for any Year you desire, underneath it in this Table you have the Day of the Week each Month begins on throughout the Year; as the Dominical Letter for 1683, being found to G, under G you find Mon. Thur. &c. find against them on the left side Ian. Feb. &c. which shews that the first of Ian. is on a Monday, the first of Feb. on a Thursday, &c. if it be Leap-year, and has two Dominical Letters, you must use the first Letter only for Ian. and Feb. and for the other Months the second Letter; As the Dominical Letters for 1684, FE, F shews only that Ian. begins on Tuesday, and Feb. on Fryday, but E shews the beginnings of all the rest. The Figures under each Month shew the number of Days, but in Leap years Feb. has 29 Days

The

Perpetual Almanack.

Having by the two former Tables, found what day of the Week the Month begins, This Table readily shews the Day of the Month. Example, The first of February 1683, is on a Thursday, and I would know what day of the Month the third Wednesday in that Month is? I seek for the Square in this Table that begins with Thursday, and in that Square look for Wednesday, and against it I find 7, 14, 21, 28, which are all the Wednesdays in that Month, the third answering the Question, being the 21st day of the Month. Again, What day of the Week is the 16th of May, 1684? By E the Dominical Letter for the latter part of the Year, I find in the precedent Table that April begins on Tuesday, and looking in that Square in this Table, I find the 16th day Wednesday.

19	18	37	56	75	94		5	10	15	1
1	19	38	57	76	95		6	11	16	2

The Prime by the Table is found after the same manner as the Dominical Letter, the even Hundreds to be sought for at the top, and the Parts on the side of the Table, and when the number of Years sought consists of Hundreds and Parts, then the Angle of Meeting Shews the Prime. Example, What is y^e Prime for the Year 1683? I seek for 1600 at the top, which I find in Page 5, underneath which, and against 83, I have 12, the Prime desired. But without the Table, this is the Rule: Divide the Year of our Lord by 19, and to the Remainder after Division add 1, and y^e Sum is y^e Prime for that Year. So 1684, divided by 19, leaves 12, to which adding 1, it makes 13, the Prime for 1684. And in the Table under 1600, and against 84, you will find the Prime for that Year to be 13, as before.

The

Having found the Dominical Letter and Prime for any year you desire, seek for the Prime in y^e square next the Dominical Letter, and in a straight Line to the right hand (under From Christm. to Shrove-Sunday) you have the Weeks and Days from Christmas to Shrove Sunday; and (under Shrove Sunday) the Day of the Month Shrove Sunday happens on, and in the last Column (under the Title Easter day) you have the time of Easter Exam in for 1683, the Dominical Letter is G, and Prime 12, I seek for 12 against G, and in that Line find 7 Weeks 6 Days, the time between Christmas and Shrove Sunday; and that Shrove Sunday is on Feb. 18. and Easter day on April 8. for that year. For 1684, Dom. Let. FE, and Prime 13, F shews only 6 Weeks 5 Days from Christmas, and that Shrove Sunday is Feb. 10. and E. that Easter day is March 31. The

This Table is but a continuation of the former, and after the same Method shews Rogation Sunday Ascension day, Whit Sunday, Trinity and Advent Sunday, Example for 1683 G being the Dominical Letter, and 12 the Prime, shews Rogation Sunday is on May 13, Ascension day May 17, Whit Sunday May 27, &c. Again, for 1684, the Sunday Letters (it being Leap year) are F E, but the former serving only till Feb. 25 I take E, and seek for the Golden number 13 against it, and guiding my eye to the right hand, find Rogation Sunday to be on May 4, Ascension-day on May 8, Whit Sunday on May 18, &c. In the same manner by the next Table you may find the Moveable Terms for ever. Example In 1684, Easter Term begins April 16, and ends May 12; and Trinity begins May 30, and ends June 18.

The

500 Easter Term hath five Returns, viz. { 1 Quind Pasch. } { 2 Tres Pasch. } { 3 Mens Pas. } { 4 Quind Pas. } { 5 Cras Asc. }

Trinity Term hath four Returns viz. { 1 Craft. Trin. } { 2 Oct. Trin. } { 3 Quind Trin. } { 4 Tres Trin. }

Fairs in September.

bridge. 14 At Abergavenny, Chesterfield, Denbigh
 Rippon and Wootton under Edge. 15 At Stratford
 upon Avon. 21 At Baldock, Bedford, Canterbu-
 ry, Croydon, Dover, St. Edmundsbury, Malden,
 Marlborough, Nottingham, Peterborough, Shrewsbu-
 ry, Vizes, and Wendover. 23 At Malton for Horses.
 29 At St. Albans, Basingstoke, Bishopstretford, Chi-
 chester, Higham-ferrers, St. Ives. Kingston upon Hull
 Lan.

The Use of the foregoing Tables.

THE Tables of the *Sun's Rising, Setting, and Place, &c.* are so easie to be understood, that they need no Explanation; but in the Table of the *Changes of the Moon* (by which her Age must be found, thereby to find the time of High-water) you must take notice, That therein the Day is divided into 28 hours, the first being to be reckoned from Noon.

Example.

What is the Moon's Age the 20th of May 1694?

I seek in the Table that has 1694 at the top of the first Column, and against *May*, and under *New* I find 13 12 41, the first of which Numbers is the Day of the Month, and the two last the Hour and Minute of that Day wherein the Moon changes; now 12 hours 41 minutes of the 13th day is (according to the Vulgar reckoning) 41 minutes after 12 of the Clock in the Morning the 14 day, (or near 1) from whence I conclude, that the New Moon being on the 14th day, on the 20th day she must be 6 days old. And if I would know the time of *High-water* at *London* (or any other place in the Table for High-water mentioned) it is but entering the Table with the Moon's Age, and having found it in the first Column under the Title *Moon's Age*, against it in the Column under *London* (or of any other place you would know the time of High-water) you have your desire; as on the 20th of *May* 1694. the Moon being 6 days old, I find against 6 (in the first Column) and under *London* (in the second) 7 48, which shews that on the 20th of *May* aforesaid it will be High-water at 48 minutes after 7 of the Clock. *Note*, That great Winds or Rains may hasten or keep back the Tides.

Fairs in September and October.

Lancaster, Leicester, Ludlow, Newbury, Sittingborn, Uxbridge, Weyhill, and West-Chester.

October 1 At Banbury. 2 At Maidstone and Salisbury. 9 At Gainsborough. 11 At Newport Pagnel. 13 At Colchester, Gravesend, Hitchin, Laiton-buzzard, Tamworth, and Windsor. 18 At Banbury, Barner, Bridgnorth, Bishops-Hatfield, Burton upon Trent, Ely, Kidwelly, Middlewich, Newcastle, Radnor, Tun-

3 1650	20 1657	37 1684	

By this the former *Regal Table*, may easily be found the Year of each King's Reign corresponding to the Year of our Lord, always remembring to begin the Year of our Lord on *March 25*,

Example.

I have a Deed bearing Date the *17th of May*, in the Two and Twentieth Year of the Reign of King *Charles the Second*, but the Year of our Lord is omitted; I desire to know in what Year of our Lord this Deed was made?

I find by this Table, that the beginning of the Two and Twentieth Year of King *Charles the Second's* Reign was in 1669, but I cannot find here what Month his Reign began in; wherefore I turn to the first *Regal Table*, and find there that he began his Reign the 30th of *January*, 1648. from whence I conclude that the *17th of May* into the first Year of his Reign must be the Year of our Lord 1649, which proves by consequence, that the *17th of May*, in the Two and Twentieth Year of his Reign, must be in the Year of our Lord, 1670.

Directions what is to be done each Month
in the *Orchard*, and *Kitchen*, and *Flower-
Gardens*.

J A N U A R Y.

Orchard and Kitchen Garden.

BARE the Roots of your Fruit-Trees, and if the Weather be open, lay good Dung to them. Gather your Gions for Grafts before the Buds sprout, and cleanse your Trees from Moss. Plant Quicksets. Transplant young Fruit-Trees, and prune the old towards the Decrease of the Moon. Set young and prune your old Vines. Begin to nail and trim your Wall-Fruit. Set Beans and Pease. Sow Lettuce, Chervil, Spinage, Radish, and other salading in hot Beds. Turn up your Bee-hives, and sprinkle them with a little warm and sweet Wort.

Flower-Garden.

PReserve your best Gilliflowers, and Auricula's, and your early Anemonies and Ranunculus's, from too much Wet, Frost or Snow; as likewise your Carnations, and such Seeds as are liable either to be wash'd away or over-chill'd, by covering them, and striking off the Snow where it lies too thick. About the middle of this Month, if you plant your Anemony Roots and Ranunculus's, they will be secure without covering. Keep your Conservatory, where your Greens and nice Plants are housed, close shut, except to let in the Sun; and if it freeze extremely, keep a small fire of Charcoal therein. Set up Traps for Vermine; and towards the end of the Month, earth up with fresh and light Mold the Roots of such Auricula's as have been uncover'd by the Frost.

FEBRU.

F E B R U A R Y.

Orchard and Kitchen Garden.

BEgin to graft Apples, some Pears, Plumbs, Cherries, &c. Cover the Roots of those Fruit-Trees the last Month left bared, and prune such of your Fruit-Trees and Vines as could not be done then; for this Month is most proper to bind, plash, nail and dress, because less subject to frost. Be still cleansing your Trees from Moss, and take off the Webs of Caterpillers from the tops of Twigs. Plant Vines, Hops, &c. Set all sorts of Kernels and stony Seeds. Sow and Set all sorts of Asparagus, Radish, Corn-salad, Parsnips, Carrots, Onions, Garliok, Marigolds, &c. Plant Cabbage Plants, Potatoes, Parsley, Spinage, and other hardy Pot-herbs. Steep Melon and Cucumber seed in new Milk 24 hours, and sow them in a hot Bed, keeping the Bed covered till they appear, and then uncover it in clear and Sun shine Weather, but cover it again at night. Still keep close your Conservatory, watering the Roots of your Orange and Limon Trees, &c. with water wherein has been sheeps Dung steeped in the Air or Sun for two or three days, taking care not to wet the Leaves, lest you destroy your Plants.

Flower-Garden.

SEcure your choice Flowers in Beds with Tiles as soon as they appear above ground. Air your hous'd Carnations in warm Days and mild Showers, setting them in again at Night. Sow Auricula Seeds in good mellow Earth. Plant Anemonies for latter Flowers. Sow Lark-spurs, &c. Place your Boxes sown with choicest seeds where they may be secure from sharp Winds and violent Rains.

M A R C H.

Orchard and Kitchen Garden.

GRaft all this Month, except the Spring prove extraordinary forward, and take heed to graft your Cion on that side of the Stock which is least exposed to the South-west Wind, and be careful that

that the Rain get not into the Clefts of your young grafted Stocks. Stake and bind up weak Shrubs and Plants. Plant Peaches and Nectarines early, not cutting off the Top-roots, as in other Trees. Prune last years Grafts, and cut off the heads of your budded Stocks. Top your Rose Trees near a Leaf-bud with your knife, and cut off the dead and wither'd Branches. Slip and set Sage, Thyme, Rosemary, Lavender, &c. Sow Endive, Succory, Leeks, Radish, Beets, Parsnips, Parsley, Sorrel, Skirrets, Bugloss, Burrage, Chervil, Sallery, Smallage, Alisanders, &c. in the beginning of the Month. Sow also Lettuce, Onions, Garlick, Purslain, Turneps, Carrots, Cabbages, Pease, Cresset, Fennel, Marjoram, &c. Transplant Medicinal Herbs. Cover your Melon Plants with Beer Glasses till you remove them. String your Strawberry Beds, and uncover your Asparagus, which you may now transplant to make new Beds. By this time the Bees sit, therefore keep them close night and morning if the Weather prove ill.

Flower-Garden.

PLant Box, &c. Sow Pinks, Sweet Williams, Carnations, Wall-Flowers, Stock Gilliflowers, French Honey-Suckles, Primroses, Cowslips, Larkspurs, Indian Scabious, &c. On your hot Beds sow African Marygolds, Amaranthus, Nasturtium Indicum, the sensible and humble Plants, &c. African Marygolds, and Nasturtium Indicum will come up in a cold bed. Transplant Gilliflowers, and other fibrous rooted Plants, new earthing up those unremoved. Cover your choicest Tulips. Sow Stock Gilliflowers at Full Moon to produce double Flowers. Towards the latter end of the Month if the Weather be not too cold, you may open the Windows of your Conservatory, and by degrees harden your Greens to bear the Air.

A P R I L

Orchard and Kitchen Garden.

Sow sweet Majoram, Hyssop, Basil, Thyme, Winter Savoury, Scurvey-grass, Lettuce, Purslain, Gilliflowers, Radishes, Marygolds, &c. Set slips of Artichokes, Lavender, Thyme, Penny-
F Royal,

Royal, Sage, Ro'emary, &c. Set French Beans, and sow Turneps. Toward the middle of the Month, begin to Plant forth your Melons and Cucumbers. Gather up Worms and Snails (all Summer) after Evening showers. Open your Bee-hives, for now they hatch: look carefully to them, and prepare Hives, &c.

Flower-Garden.

Continue hot Beds for such exotick Plants, as will not arrive to perfection without them, till the Air and common Earth be endowed with sufficient heat to preserve them abroad. Transplant such fibrous Roots as you had not finished in March, as Violets, Hepatica, Primroses, &c. Shelter your seedling Auricula's from the Sun. Take out your Indian Tuberose, parting the Off-sets carefully least you break their fangs, then put them in natural (not forced) Earth, placing a layer of rich Mould beneath and about the Natural Earth, to nourish the fibres, but not to touch the Bulbs, then plunge your Pot in a hot bed moderately warm, and give them no Water till they spring; then set them under a South Wall; in dry Weather water them freely, and expect an incomparable flower in August. Set out Flos Cardinalis, Slip and set Marums. Water Anemonies, Ranunculus's, and Plants in pots, once in two or three days, if drowth require it. Preserve your best Tulips, Ranunculus's, Anemonies, and Auricula's from storms of Rain or Hail, and the parching darts of the Sun. In fair weather you may venture to expose some of your tender shrubs, but your Oranges may be left in till next Month. You may now graft Oranges, Limons, Pomegranates, Jessamines, &c. Mow Carpet Walks, and ply weeding and hawing.

M A Y.

Orchard and Kitchen Gardens

IF you find your Buds ready you may inoculate. Sow Purslain to have it young, Lettuce, large-sided Cabbage, &c. Look carefully to your Melons, and toward the end of the Month uncover them. Set your Bees at Liberty, and expect Swarms.

Flower.

Flower-Garden.

BRing your Oranges forth, Transplant and remove them. Transplant Amaranths, Flos Africanus, Nasturtium Indicum, Mirabilia Peruviana, &c. from your hot Beds into good and rich Soil, as much as may be in the Sun. Give all your housed plants (which you do not remove) fresh Earth at the Top, loosening the rest with a fork, taking great care that you hurt not the Roots, and cleanse them from the Dust they have contracted in the Conservatory. Plant your Stock Gilliflowers in Beds at full Moon, and shade your Carnations and Gilliflowers after mid-day. Gather your Anemony Seeds as the Due rises, and preserve it dry. Cut the stalks of such bulbous Roots as you find dry. Sow hot and Aromatick Herbs.

J. U. N. E.

Orchard and Kitchen Garden.

Cleanse Vines of exuberant Branches and Tendrels stopping the Joint. Inoculate Peaches, Apricocks, Plumbs, Apples, Pears, &c. Gather Herbs at the Full Moon to keep, dry them in the shade. Sow Lettuce, Chervil, Radish, &c. Destroy Aromatick Plants. Look to your Bees for Swarms and Casts. Destroy Insects.

Flower-Garden.

Transplant Autumnal Cyclamens. Take up Iris Chalcedon. Gather the ripe Seeds of your choicest Flowers, and preserve them dry. Take up your best Anemonies, Tulips and Ranunculus's (the stalks being wither'd) after Rain, and dry the Roots well. Lay Gilliflowers, which will take root in six weeks, and be ready to transplant into a light laomy Earth, you may plant six or seven in a Pot, but be careful to keep them from too much Rain. Slips of Myrtle set in a cool and moist place do now frequently take root. Such Gilliflowers as are now blown, keep for seed, letting them have but few Layers to nourish, and but few buds; but save not any for this purpose that break their pods; preserve them from Wet as much as you can.

JULY.

Orchard and Kitchen Garden.

WATER your planted Trees and Layers. Prune Apricocks and Peaches, saving as many of the young likeliest shoots as are well Placed. Cleanse your Wall fruit from superfluous Leaves. Stop the exuberant shoots of Vines at the second Joint. Remove your large sided Cabbages planted in May to head in Autumn. Let such of this Garden's Herbs as you would save, run to seed. Sow latter Pease, and Lettuce, Chervil, Radish, &c. for young Salading. Keep Weeds from growing to seed, and begin your Hawing. Gather the Snails from your Wall fruit, but pull not off the bitten fruit, for then they will begin with others. Straiten the Entrance of your Bee-hives, and help your Bees to kill Drones, Wasps, &c. by setting Glasses of Beer mingled with Honey for them.

Flower-Garden.

SLIP Stocks and other lignous Plants and Flowers. From henceforth to *Michaelmas* you may lay Gilliflowers and Carnations for increase. You may also lay Myrtles, Lawrels, Jessamines, and other Greens. Clip Box after Rain. Water your planted shrubs and Layers. Take up early Autumnal Cyclamens and transplant them. Gather early Cyclamen Seed, and sow it presently in Pots. Latter end of the Month sift your Beds for Off-sets of Tulips, and for Anemonies, Ranunculus's, &c. You may sow Anemony Seeds, keeping them temperately moist.

AUGUST.

Orchard and Kitchen Garden.

INOCULATE early, if you began not sooner. Prune off superfluous Branches and shoots of the second spring. Pull up the suckers. Clip Roses that have now done bearing. Sow Cabbages and Colliflowers for Winter Plants, Corn-salad, Lettuce, Marygolds, Carrots, Parsnips, Turneps, Spinage, Onions, curled Endive, Angelica, Scurvy-grass, and such Plants

Plants as endure Winter. Pull up ripe Onions and Garlick, &c. Transplant such Lettuce as you would have abide all Winter. Gather Olitory seeds, and clip and cut all such Herbs and Plants before Full Moon within an handful of the Ground.

Flower-Garden.

Gather Seeds of shrubs which you find ripe. Now is the season for the budding of Orange Trees, inoculate therefore at the beginning of this Month. Take up bulb Roots of Lilies, &c. dry them and lay them up. Plant some Anemony Roots to have Flowers all Winter. Now earth your Pots of Auricula's, transplant and divide their Roots into a light rich Earth. Sow Larksheel, Columbines, Iron-colour'd Fox-gloves, Holly-Hocks, &c. About *Bartholomew-tide* is the only secure season for removing and laying your perennial Greens, Oranges, Limons, Myrrles, Phyllyrea's, Oleanders, Jessamines, Arbutus, and other rare shrubs, as Pomegranates, Monthly Roses, and whatever is obnoxious to Frosts.

S E P T E M B E R.

Orchard and Kitchen Garden.

IN dry weather gather such of your Winter fruits as are ripe, and daily pick up the Wind-falls. Release inoculated Buds. Sow Lettuce, Radish, Spinage, Colliflowers, Cabbages, &c. and Winter Herbs and Roots. Transplant most eating and Physical plants. Plant Strawberries out of the Woods. Earth up your Winter Plants and Salad Herbs, and plant forth your Cabbages and Colliflowers which were sown in *August*. Take up your Bees, and straiten the entrances of such Hives as you leave.

Flower-Garden.

Sow Auricula's, Crocus's, Primrose and Cowslip-seeds, Stake your Autumnal Flowers and Plants. Take of Gilliflower Layers earth and all, and Plant them in Pots or shady Borders. About *Michaelmas* if the weather be fair and not foggy, retire your choice Greens and rarest Plants (being dry) into your Conservatory, ordering them with fresh Mould, taking away some of the uppermost, and stirring up the rest, fill the Cases with rich and well-digested Soil, leaving the Doors and Windows still open, and giving them
much

much Air, so the Winds be not sharp or weather foggy. Shut them up by degrees, as the cold increases. Myrtles will endure abroad near a Month longer. Set such Plants as will not endure the House into the Earth, the Pots two or three Inches beneath the surface, covering them with Glasses cloath'd with sweet and dry Moss, but upon warm days and sunny showers uncover them.

OCTOBER.

Orchard and Kitchen Garden.

Trench Ground for *Orchard and Kitchen Garden*. Plant or Transplant all sorts of Fruit-Trees, having lost their Leaves, and that so soon as they fall; but take no Trees for the Wall of above two years grafting. Lay bare the Roots of old unthriving or over hasty blooming Trees. Gather Fruit remaining, (dry weather) in the Decrease of the Moon, plant and quash Quick-sers. Remove Grafts after the second year, except Dwarfs, which may stand till the third. Set Fruit-stores three Inches deep, the sharp end uppermost, and cover them with fern or straw, which take off at Spring. You may yet sow *Genoa Lettuce*, which will last all the Winter, Radishes, &c.

Flower-Garden.

House your *Hyacinthus Tuberosae*. Continue sowing what you did last Month, if you please. Set your choice Tulips. Plant some Anemonies and *Ranunculus's*, which cover from the Frosts, but give them Air in all temperate intervails. Remove your best Gilliflowers to shelter from much Rain. All sorts of bulbous Roots may now be safely buried. Beat, Roll and Mow Carpet Walks, and Camomile. Finish your last Weeding.

NOVEMBER.

Orchard and Kitchen Garden.

Plant young standard and Wall Trees, and furnish your Nursery with Stocks to graft on the following year. Continue your setting and transplanting Trees. Turn your Melon Ground, mixing

mixing it with rich Earth, and lay it in Ridges against Spring. Trench ground for Artichokes. Sow and set early Pease and Beans. Lay up in Cellars for spending and for Seed, Carrots, Turneps, Parsnips, Cabbages, Colliflowers; &c. Crop Asparagus, covering it with long Dung, and make Beds to plant in Spring. Take up your Potatoes for Winter spending.

Flower-Garden.

Sow Auricula Seeds. Plant fibrous Roots, Roses, Althea frutex, Syringa's, Peonies, &c. If the weather require it, quite enclose your tender Plants in your Conservatory, and if it freeze in the house, kindle some Charcoal, and when they have done smoaking put them in a hole about the middle of the Floor. In a sun shiny quiet day you may shew them the Sun through the Glass, but enclose them again before the Sun begone off. Be very sparing in watering them, but if they become extream dry and it do not Freeze; you may with care refresh them with a little water mingled with Sheep or Cow-dung. Never give your Aloes or Sedums a drop of water all winter; but if your Aloes grow manifestly too dry, you may recover them by exposing them a little to the Air in a fair day. Plant Forest Trees for Walks, &c.

DECEMBER.

Orchard and Kitchen Gardens.

Plant Vines and Stocks for Grafting. Prune and nail Wall-fruit (which yet you may defer a month or two longer) and standard Trees. Set all sorts of Kernels, Stones, &c. Trench Ground and dung it for Borders, &c. Turn and refresh your Autumnal Fruit.

Flower-Garden.

Set up Traps for Vermine. Preserve your Anemones, &c. from too much Rain or violent Frosts. Keep the Doors and Windows of your Conservatory well matted. In open weather set your best Ranunculus's in a Bed of Rotten Thatch or Straw, with good Mold above and below; and set your best Anemones in a light rich loamy Earth sifted through a wyer Biddle. Preserve your Fountain Pipes from cracking with Frost, by covering them with warm Horse Litter.

Reduction

Reduction of Weights, Measures, and Coins.

Troy Weight		Grains	
Peny weight.		24	
Ounce.	24	480	
Pound.	12	240.	5760

By *Troy Weight* is weighed Gold, Silver, Jewels, Amber, Electuaries, Bread, Corn and Liquors; and from this Weight all Measures for wet and dry Commodities are taken.

The *Pound Troy* is in proportion to the *pound Averdupois* as 17 to 14, and the *Ounce* as 51 to 56.

A TABLE for the Assize of Bread, for Bakers that live in Corporations.

Price of wheat the Bu- shel.		Troy Weight.						Averdupois W.

9	0	4	6	6	10	8	12	4	2	7	0	9	2

Note, that Bakers who live out of Corporations are to make their Bread of the weight of the Rate of three Pence less than the Corporation Bakers, as when the Corporation Baker makes Bread of the Weight against 5s. the Country Baker must make it of the Weight against 4s. 9d.

When Wheat is at 5 Shillings per Bushel then the Corporation Baker's Penny Wheaten Loaf is to weigh 11 Ounces Troy, and Three Half-penny White Loaves the like weight, and the Household Penny Loaf is to weigh 1 Pound, 2 Ounces, and 14 Penny weight, Troy; and so for a greater or lesser weight proportionably. And if a Baker want but one Ounce in 36, for the first, second, and third fault he may be amerced, but for the fourth he is to stand in the Pillory without redemption.

Apothecaries Weight.			Grains.
		Scruples.	20
	Drams.	3	60
Ounces.	8	24	480
Pound.	12	96	288
			5760

Apothecaries in making up their Medicines use this Weight, but they buy and sell their Drugs by the *Averdupois*.

Averdupois Weight				Drams.	
				Ounces	16
				Pounds.	16
					256
Quarters.		28		448	7168
Hundreds.	4	112		1792	28672
Tun.	20	80	2240	36840	573440

By *Averdupois* Weight is weighed all manner of things that have waight, as all *Physical* Drugs and Gro-cery, *Rosin*, *Wax*, *Pitch*, *Tar*, *Tallow*, *Soap*, *Hemp*, *Flax*, &c. all *Base Metals* and *Minerals*, as *Iron*, *Seel*, *Lead*, *Tin*, *Copper*, *Alum*, *Copperas*, &c. The *Tun Averdupois* is 20 Hundred of all things, except *Lead*, which has but 19 Hundred and a half to the *Tun* or *Fodder*. The *Hundred Weight Averdupois* contains 112 Pound, the *Half Hundred* 56 Pound, the *Quarter* 28 Pound, the *Stone* (or half *Quarter* of the *Hundred*) 14 Pound; and thus is *Iron* and *Shor* weighed; but *Alum*, *Cinamon*, *Nutmegs*, *Pepper*, and *Sugar*, have but 13 Pound and a half to the *Stone*, or half *Quarter* of the *Hundred*, 27 Pound to the *Quarter*, 54 Pound to the half, and 108 Pound to the whole *Hundred*. *Essex* *Cheese* and *Butter* are weighed by the *Clove*, or half *Stone*, allowing 8 Pound to each *Clove*, and 32 *Cloves*, or 256 Pound to the *Wey*; and in *Suffolk* they allow 42 *Cloves*, or 336 Pound to the *Wey*. *Wool* is sold by the *Clove*, allowing but 7 Pound to the *Clove*, 14 Pound to the *Stone*, 28 Pound to the *Tod*, 182 Pound to the *Wey*, 364 Pound to the *Sack*, and 4368 Pound to the *Last*. A *Fagot* of *Steel* is 120 Pound. A burthen of *Gad Steel* is 9 *Score*, or 180 Pound, 56 Pound of *Butter*, or 60 Pound of *Soap*, make a *Firkin*, and 2 *Firkins* of either make a *Barrel*. *Butchers* allow but 8 Pound to the *Stone*.

Wine Measures.

			Gallons.	Gallons.

Kilderkins.	2	18	36	72	144
Barrels.	2	4	36	72	144
				144	288

The Duty of Excise upon Strong Beer and Ale is 6s. 6d. per Barrel, and upon Small Beer and Ale 1s. 6d. per Barrel. A Barrel of Beer contains 36 Gallons, and a Barrel of Ale 32, as you may see in the respective Tables of Ale and Beer Measure. Brewers are allowed for Leakage, &c. and of Beer (both Strong and Small) 3 Barrels in 23, and of Ale 2 in 22; so that the Neat Excise of a Barrel of Strong Beer to be paid by Common Brewers is 5s. 7d. 3f. and $\frac{7}{3}$ of a Farthing; of a Barrel of Strong Ale 5s. 10d. 3f. and $\frac{14}{3}$ of a Farthing; and a Barrel of Small Beer 1s. 3d. 2f. and $\frac{14}{3}$ of a Farthing.

Dry Measures.

						Pints.
						Quarts. 2
						Pottles. 2 4
						Gallons. 2 4 8
						Pecks. 2 4 8 16
						Bushels. 4 8 16 32 64
						Quarters. 8 32 64 128 256 512
						Wey. 5 40 160 320 640 1280 2560
						Last. 2 10 80 320 640 1280 2560 5120

A Bushel Water-Measure contains 5 Pecks. Some make 6 Quarters of meal a Wey, and 1 Wey 3 Quarters a Last.

Long Measures.

				Inches.
				Feet. 12
				Yards. 3 36
				Poles. $5\frac{1}{2}$ 16 $\frac{1}{2}$ 198
				Furlong. 40 220 660 7920
				Mile. 8 320 1760 5280 63360

In this Table the Pole or Perch is computed to be 16 Feet and an half, which is the Statute Measure, but there are some customary Measures which are more, as for Fens and Woodlands they reckon 18 Feet to the Pole, and for Forests 21.

Superficial or Square Measures.

				Feet.
				Yards. 9
				Poles. $30\frac{1}{4}$ 272 $\frac{1}{4}$
				Rods. 40 1210 10890
				Acres. 4 160 4840 43560
				Mile. 640 2560 102400 397600 27878400

In this Table you have in a Square Mile 640 Square Acres, 2560 Square Rods, &c. in a Square Acre 4 Square Rods, 160 Square Poles, &c. in a Square Pole $30\frac{1}{4}$ Square Yards, and 272 $\frac{1}{4}$ Square Feet; and in a Square Yard 9 Square Feet. Which being rightly understood all these Tables of Reduction are sufficiently explained.

Gold to Silver is in proportion as 12 to 1, and the Value of both in *England* is as follows: One Penny-weight of Angel Gold is worth 4s. 2d. 2f. Of Crown Gold 3s. 10d. 2f. and of Sovereign 3s. 6d. 2f. The Standard of Sterling Silver is 11 Ounces, and 2 Penny-weight of fine Silver, and 18 Penny-weight of Alloy of Copper; so that 12 Ounces of Pure Silver without any Alloy, is worth 3l. 4s. 6d. and an Ounce 5s. 4d. 2f. but with Alloy the Pound is worth no more than 3l. and the Ounce 5s.

The Standard for Gold is in the Pound Troy 11 Ounces of fine Gold, and 1 Ounce of Alloy.

Our Gold is of equal fineness with the *Spanish*, *French*, and *Flemish*; but our Silver Coin has less of Alloy in it than either *French* or *Dutch*.

Fineness of Gold is esteemed by the Caract, which is no certain weight, but the Twenty fourth Part of any Quantity, and is divided into Grains and Parts; as the Twenty fourth Part of the Pound Troy, and then Two Penny weight 12 Grains Troy makes a Caract grain, and four of such Caract grains make a Caract, and 24 Caracts make a Pound Troy; or the Twenty fourth part of an Ounce Troy, and then five Troy Grains make one Caract-grain, and four Caract-grains make one Caract, and 24 Caracts make one Ounce Troy. The Caract which weighs Jewels is divided into 4 Grains, of which 20 make a Penny weight Troy.

Several

*Several Foreign Gold and Silver Coins, assayed in the
Mint and rated as Bullion.*

A T A B L E

For the ready Casting up any Number of Farthings, Half-pence, Pence, or Shillings, where may be found by Inspection what the Great Hundred comes to, at any Rate the Pound, from One Farthing to Five Shillings.

The use and Explanation.

Example 1. If 1 Ell of Canvas cost 7d. 2s. What will 500. Ells cost?

Seek for Seven-pence half-penny at the top of the Page, which you will find page 79. Then seek for 500 (the Number of Ells) in that, which you will find in the third Column, and against it is 15l. 12s. 6d. and so much will 500 Ells of Canvas cost at 7d. 2s. the Ell.

Example 2. If 1 Pound of Sugar cost 4d. 2s. What will 2 C. weight Averdupois cost?

Seek in the Page whose Title is Four-pence half-penny, for 224 (there being so many Neat Pounds in 2 C. Averdupois) and against it you will find 4l. 4s. which answers the Question.

Example 3. If 5. C. weight Averdupois of Soap cost 4l. 1s. 8d. What did 1 Pound cost?

Seek in the Table till you find 4l. 1s. 8d. against 560 (the Neat Pounds in 5 C. Averdupois) and at the top of the Page you have the Answer; viz. Seven Farthings.

Note, That the first and third Columns in this Table are the Multipliers, (where you must look for the Number of Yards, Ells, Pounds, &c. you would know the price of at the rate mentioned on the Top of the Page,) and the second and fourth shew the value of the Sum multiplied in all Pages from a Farthing to Five Shillings; but afterwards the first Column only contains the multipliers, and the other three shew the Value of the Sum multiplied: Also that the Numbers within Parentheses relate to the great Hundred; as (28) (56) (84) (112.) &c. are the Quarter, Half, Three Quarters, and Whole Great Hundred, &c.

Example of this Table.

What comes 500 Guinea's to at 1 l. 1 s. 8. d. 3 q. per Guinea ?

I seek for 20 Pence 3 Farthings at the top of the Table, which I find over the third Column in *Page 159*; then I seek for 500 in the first Column, and right against it in the third Column I find 543 l. 4 s. 7 d. which answers the Question.

Note that Guinea's and Broad Gold, at present go at greater Prices, but these being the most likely Rates, is the Reason the Tables are not altered.

A TABLE SHEWING

The Interest, or Rebate of any Summ of Money, at 6 per Cent. Simple Interest, for 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Months.

1. Example of Interest.

What does the Interest of 330 l. amount to at the end of 11 Months.

I seek in those Pages, entitled, *Simple Interest at 6 per Cent.* for the Column which has 11 Months at the top; and in that Column for the Summs against 300 and 30, (because it cannot be found at once) and find, that the Interest of

l.			l.	s.	d.
300	} forborn 11 Months, amounts to	{	16	10	0
30			1	13	0
<hr/>			<hr/>		
330			18	03	0
<hr/>			<hr/>		

2. Example of Rebate.

What is the present worth of 200 l. due at the end of 7 Months.

I seek in those Pages entitled, *Discount or Rebate at 6 per Cent.* for the Column which has 7 Months at the top, and in that Column against 200 l. I find 193 l. 4 s. 8 d. 3 f. which answers the Question.

Interest of Money for days.

TO find the Interest of any sum of Money for any number of Days at any Rate of Interest, the Rule is,

Multiply the Principal by the Rate, and the Product by the Number of Days, and it gives a Dividend, which divided by 36500 (the Common Divisor for all Rates) answers the Question.

Example 1. What is the Interest of 500 l. at 6 per Cent. for 200 Days ?

The Principal 500
The Rate 6

3000

Days 200

Common Divisor 36500) 600000 (16.438

Answer 16 l. 8 s. 9 d.

Example 2. What is the Interest of 1000 l. at 8 per Cent. for 365 Days ?

Principal 1000
Rate 8

8000

Days 365

Common Divisor 36500) 2920000 (80 l. Answer.

And thus may you readily find the Interest of any sum of Money at any other Rate, for any Number of Days.

1	36500
2	73000
3	109500
4	146000
5	182500
6	219000
7	255500
8	292000
9	328500

For the easing you in your Division, I have here inserted a Table of the Multiplication of the Common Divisor, whereby you may at first sight perceive how many times the Divisor is contained in the Dividend.

TABLES

TABLES

FOR THE

Forbearance, Discompt, and Purchase

OF

ANNUITIES,

FOR

1, 2, 5, 7, 10, 14, 20, and 21 Years, at
6 per Cent. Compound Interest.

SHEWING,

- I. What an Annuity, Rent, or Pension, forborn any of those Numbers of Years amounts to.
- II. What an Annuity, to continue any of those Numbers of Years, is worth in ready Money.
- III. What Annuity any sum of Money will purchase to continue any of the abovesaid Numbers of Years.

Note, That you have two years instead of one year purposely set down in the Forbearance of Annuities, because the Annuity is not due till the end of one year, and therefore cannot be considered as forborn that time.

THese Tables are so plain in themselves, that they need no Examples to illustrate them ; but because Questions only of the particular years mentioned at the top of each Column can be resolv'd by them, I shall in the next Page insert a Table, whereby you may try any Number in the foregoing Tables, and answer any Question belonging either to *Forbearance*, *Discompt*, or *Purchase of Annuities* (as also to the *Rebate of Money*) at 6 per Cent Compound Interest, for any number of years not exceeding 40 : To do which, this is the Rule :

Multiply that Number in the Table which stands right against the Number of Years proposed (and in the Column to which the Question belongs, whether for Forbearance, Discompt, or Purchase of Annuities, or Rebate of Money) by the Annuity to be forborn, discompted, or purchased, or by the Sum to be rebated, and from the Product cut off six Figures to the right hand, the Figures remaining to the left hand, are Pounds, and the Figures cut off are the Decimal parts of a Pound.

One Example will be sufficient to explain the whole Table, which shall be this :

If 500 l. Annuity be forborn 21 Years, what will it amount to ?

Tabular Number against 21, and under Forbearance of Annuities.	} 39992725
Annuity forborn—500	
<hr/>	
19996 362500	
<hr/>	

Answer 19996 l. and .362500 Decimal parts of a Pound, which being reduced, is 7 s. 3 d. And this agrees exactly with the foregoing Table of the Forbearance of Annuities, (wherein under the Title 21 Years, and against 500 in the first Column, you have 19996 l. 7 s. 3 d. of.)

And after this manner are all Questions belonging to the following Table resolved.

A Table supplying the Defect of Years in the Three last Tables, as also shewing the Rebate of Money at 6 per Cent. Compound Interest.

Years.	Forbearance of Annuities.	Discompt of Annuities.	Purchase of Annuities	Rebate of Money.

4	0.0166666	9	2.0395833	13	0 0.65
4	1.0177083	9	3.040625	14	0 0.7
4	2.01875	10	0.0416666	15	0 0.75
4	3.0197916	10	1.0427082	16	0 0.8
5	0.0208333	10	2.04375	17	0 0.85
5	1.021875	10	3.0447916	18	0 0.9
5	2.0229166	11	0.0458333	19	0 0.95

To find the foregoing Fraction $\frac{362}{5}$ by this Table, you must do thus: Seek for the *Decimal Fraction* in the Table that is nearest to it, (since you cannot at once find all the Figures) which is .35, against which on the left hand you have the value of it, viz. 7 s. subtract this from .3625, and there will remain .0125, which being found in the Table, against it stands 3 d. which added to 7 s. gives 7 s. 3 d. for the value of $\frac{362}{5}$ of a Pound.

And thus you may find the value of any *Fraction* of a Pound by this Table.

THE RATES OF
POST-LETTERS,
BOTH

INLAND and OUTLAND;
ESTABLISHED,
Anno XII. CAR. II. Regis.

	s.	d.
I. THE Carriage of every single Letter not exceeding one Sheet, to or from any place not exceeding fourscore Miles. —————	0	2
The like carriage of every double Letter not exceeding two Sheets. —————	0	4
The like carriage of every Pacquet of Letters proportionable to these Rates.		
The like carriage of every Pacquet of Writs, Deeds, and other things, for every Ounce ———	0	8
II. The carriage of every single Letter above fourscore Miles —————	0	3
The like carriage of every double Letter ———	0	6
And after these Rates for all Pacquets of Letters.		
The like carriage of every other Pacquet, for every Ounce —————	1	0
III. The carriage of every single Letter from London to Berwick, or from Berwick to London, ———	0	3
The like carriage of every double Letter ———	0	6
And after these Rates for all Pacquets of Letters.		
The like carriage of every other Pacquet, for every Ounce —————	1	6
IV. The carriage of every single Letter from Berwick unto any place within 40 Miles distance ———	0	2
The like carriage of every double Letter ———	0	4
And after these Rates for every Pacquet of Letters.		

The

The carriage of every other Pacquet, for every Ounce— } ^{s.} 0 ^{d.} 8

The carriage of every [single Letter a greater distance than 40 Miles— } ^{s.} 0 ^{d.} 4

The like carriage of every double Letter— } ^{s.} 0 ^{d.} 8

And after these Rates for every Pacquet of Letters.

The like carriage for things of greater Bulk, by the Ounce— } ^{s.} 1 ^{d.} 0

V. The carriage of every single Letter from England to Dublin in Ireland, or from Dublin into England— } ^{s.} 0 ^{d.} 6

The like carriage of every double Letter— } ^{s.} 1 ^{d.} 0

And after these Rates for every Pacquet of Letters.

The like carriage of every other Pacquet, for every Ounce— } ^{s.} 2 ^{d.} 0

VI. The carriage of every single Letter from Dublin to any place within 40 Miles distance, or from any place within the like distance to Dublin— } ^{s.} 0 ^{d.} 2

The like carriage of every double Letter— } ^{s.} 0 ^{d.} 4

And after these Rates for every Pacquet of Letters.

The like carriage of every other Pacquet, for every Ounce— } ^{s.} 0 ^{d.} 8

The carriage of every Letter a farther distance than 40 Miles— } ^{s.} 0 ^{d.} 4

The like carriage of every double Letter— } ^{s.} 0 ^{d.} 8

And after these Rates for every Pacquet of Letters.

The like carriage of every other Pacquet, for every Ounce— } ^{s.} 1 ^{d.} 0

The several Rates that now are and have been taken for the carriage of Letters, Pacquets, and Parcels, to or from any of his Majesties said Dominions, to or from any other Parts or Places beyond the Seas, are as follow, that is to say,

	^{s.}	^{d.}
Morlaix, St. Maloes, Caen, Newhaven, and places of like distance, carriage paid to Rouen is for—	Single	0 5
	Double	1 0
	Treble	6
	Ounce	1 6
	Hamburg	

The Rates of Post- Letters.

sterdam, Rotterdam, Delph, Hague, and		
all other parts of Holland and Zealand.		

All Merchants Accompts not exceeding a Sheet, Bills of Exchange, Invoices, Bills of Lading, shall be allowed without Rate in the price of the Letters, and also the Covers of the Letters not exceeding a Sheet, to Marseills, Venice or Legorn towards Turkey.

The Hire of Post-Horses is after the rate of 3 d. for every English Mile, and 4 d. every Stage for a Guide.

Post-Letters may be sent from London,

On Mondays,

TO France, Spain, Italy, Germany, Flanders, and Swedeland, Denmark, Kent, and the Downs.

On Tuesdays,

To Holland, Germany, Swedeland, Denmark, Ireland, Scotland, all parts of England and Wales.

On Wednesdays,

To all parts of Kent and the Downs.

On Thursdays,

To France, Spain, Italy, all parts of Engl. and Scotl.

On Fridays,

To Flanders, Germany, Italy, Swedeland, Denmark, Holland, Kent, and the Downs.

On Saturdays,

All parts of England, Wales, Scotland, and Ireland.

Letters are returned from all parts of England, and Scotland certainly every Monday, Wednesday and Friday; from Wales every Monday and Friday; and from Kent and the Downs every day: but from other parts more uncertainly, in regard of the Sea.

THE

A N
ACCOUNT
OF THE
Penny-Post.

W Hereas by an Order from the Post-Master-General, bearing Date the 11th of *March*, 1684, all Carriers, Stage-Coaches, Higlers, and Drivers of Pack-Horses, are forbidden to Carry, or Re-carry any Letter or Pacquets of Letters, except what concerns their Packs, upon the Penalties therein exprest; Therefore for the better Accommodation of all Persons in their Correspondency, there are Foot-Posts settled for the Collecting and delivering of all Letters, as well for the *General Post-Office*, as others, to these Towns round *London*, brancht out from the Six Offices; as followeth, *viz.*

And for prevention of Delays, this is further to give Notice, That such Persons as send Letters to any of the afore-mentioned Towns, and cannot conveniently deliver them into the proper Offices, are to allow a proportionable time for their conveyance, from the Receiving-House to the said Offices, from whence they are dispatch'd. And such Letters that are directed to the Towns most Remote, and of Consequence to be delivered in the Morning, it would be convenient they should be left over Night, before the Messengers bring in their last Walks.

Note, That for every Letter and Parcel from these Towns to *London*, you are to pay one Penny at the Receiving-Houses there: And from *London* to the afore-said Towns, the Messenger is allowed for his own Pain and Care, to take a Penny for each Letter or Parcel at the Delivery, and no more.

Any Person (either in City or Country) that desire one of these Papers, sending to any of the above-named Six Offices, may have them delivered *Gratis*.

The Table of ROADS describ'd.

The first Column contains the Names of Places, where in Cities are in black Letter, as in *Berwick Road* *Wols.* &c. and Market-Towns in Italick, as *Hoddesdon*, &c. The Letters after them shew the Days their Markets are kept on. A Figure after any Place directs to another Road that branches out from that place, as from *Puckeridge*, marked (1) a Road goes to *Barkway*, &c. and from *Barkway* in *Norwich Road*, marked (2,) a Road goes to *Foulmere*, &c. The second Column shews the Distance of one Place from another, and the third, the Distance of each from London, in computed and measured Miles; *cm* stands for computed, and *mm* for measured Miles. The two last shew the County, Hundred, and Lath, &c.

The Names of the Counties, Cities, Corporations, and Borough-Towns in England and Wales; with the Number of Knights, Citizens, and Burgesses, chosen in each to serve in Parliament.

THE
USUAL RATES
OF
COACH-MEN.

BY an Act of Parliament made in the Fourteenth Year of Our Late Sovereign Lord K. *CHARLES* the Second it is appointed, That no Hackney-Coach-man shall presume to take for his Hire in or about the Cities of *London* and *Westminster*, above 10 Shillings for a Day, reckoning 12 Hours to the Day; and by the Hour, not above 18 Pence for the first Hour, and 12 Pence for every Hour after: Nor for his Hire from any of the *Inns of Court*, or thereabouts, to any part of *St. James's* or *Westminster*, (except beyond *Tuttle-Street*) above 12 Pence, and the like from the same places to the *Inns of Court*, or places thereabouts; nor from the *Inns of Court*, or thereabouts, to the *Royal Exchange*, more than 12 Pence; but if to the *Tower*, *Bishopsgate-Street*, *Aldgate*, or places thereabouts, 18 Pence; and so from the same places to the said *Inns of Court*, as aforesaid. That the like Rates be observed from or to any place at the like distance with the places before named. That if any Coach-man shall refuse to go at, or exact more for his Hire than these Rates, he shall for every Offence forfeit 10 Shillings.

This Act is expir'd, but these are the Rates generally given, though every one is at Liberty to agree as cheap as he can.

The Rates and Orders for *CAR-MEN*, as they were settled at the General Quarter-Sessions of the Peace.

Rates for CAR-MEN.

ALL Car-men trading or working with Cars in the City of *London* and Liberties thereof, shall and may demand and take for every Carriage or Load of the Commodities under-mentioned the Rates hereafter following; that is to say,

From any the Wharfs between the Tower and London-bridge, to Tower-street, Grace Church-street, Fanchurch-street, Bishopsgate-street within, Cornhill, and places of like distance up the Hill with 18 hundred weight, not exceeding 20 hundred weight

1. d.

And being above 20 hundred weight, for every hundred

2. 2

2. 2

In which may be included,

Two Puncheons of Prunes, 2 Bales of Mather, 20 Barrells of Figs, 2 Fats of Fustians, 6 ordinary Sacks of Cotton Wools of Smyrna, and 3 Cypress Bags, a Butt of Currans, a great Butt of Oils, 3 Chelsts of Sugar, 8 Bags of Alums, 1 Last of Flax, 1 Last of Hemp, and any other Goods herein not named of the like weight for every Load

2. 2

And for Sea Coals 14 pence the Load, every Load to be half a Chaldron; and for one hundred Fagots the like rate

1. 2

And from any the Wharfs aforesaid to Broad-street, Lothbury, Old-Jury, Bassishew, Coleman-street, Ironmonger-lane, St. Laurence-lane, Milk-street, Hldermanbury, Cheap-side, Wood-street, Friday-street, Bread-street, and Places of like distance, for the like weight of 18 hundred, not exceeding 20 hundred weight, for the Goods aforesaid, and other Goods herein not named, of the like weight, for every Load

2. 6

And being above 20 hundred weight, for every hundred

0. 2

And for Sea-Coals 16 pence the Load, every Load to be half a Chaldron; and for one hundred Fagots the like rate

1. 4

Also from any the Wharfs aforesaid to Smith-field bars, Holbourn-bars, Temple-bar, or any of the Bars on the North side of the City, and places of like distance up the Hill, with 18 hundred weight, not exceeding 20 hundred weight for every Load

3. 4

And going beyond the said places, the Parties to agree with the Car-men.

Also from any the Wharfs aforesaid, to Tower-street, Bishopsgate within, Cornhill, and other places of like distance up the Hill with 14 hundred weight, not exceeding 18 hundred weight

1. 10

In which may be included

Twenty pieces of *Raisins*, a Load of *Raisins* of the *Sun*, 6 bags of *Pepper*, 6 ordinary bags of *Gauls*, 3 great bags of *Gauls*, 6 bales and barrels of *Indico*, 6 bales of *Grogam Yarn*, 6 bales of *Turkey Silk*, 5 hogsheds of *Cloves*, 4 bales of *Calisees*, 3 hogsheds of *Wines*, 2 chests of *Sugar*, or any other Goods of the like weight, 5 hogsheds of *Tobacco* not exceeding 18 hundred weight ———— } 10

Also from any the Wharfs aforesaid to *Broad-street*, *Lothbury*, *Old Jury*, *Bassishaw*, *Coleman-street*, *Ironmonger-lane*, *St. Lawrence-lane*, *Milk-street*, *Aldermanbury*, *Cheapside*, *Wood-street*, *Friday-street*, *Bread-street*, and places of like distance for any of the said Goods of the same quantity and weight, for every Load ———— } 2 0

Also from any the Wharfs aforesaid to *Tower-street*, *Gracechurch-street*, *Fenchurch-street*, *Bishopsgate-street* within, *Cornhill*, and other places of like distance up the Hill, with 8 hundred weight, not exceeding 14 hundred weight ———— } 1 6

In which may be included

All butts and pipes of *Wine*, or a pipe of *Oil*, packs of *Canvas*, 2 Hogsheds, or 3 *Terees*, a fat of *Fustians*, and all other Goods of the like bulk and weight, for every Load ———— } 1 6

And from any the Wharfs aforesaid to *Broad-street*, *Lothbury*, *Old Jury*, *Bassishaw*, *Coleman-street*, *Ironmonger-lane*, *St. Lawrence-lane*, *Milk-street*, *Aldermanbury*, *Cheapside*, *Wood-street*, *Friday-street*, and other places of like distance, for any other Goods of like load or weight, for every Load ———— } 1 8

Also from *London-bridge-foot* Westward to the *Old Swan*, *Cole-harbour*, the *Three Cranes*, *Queen-hith*, *Broken Wharf*, *Pauls-wharf*, *Puddle-wharf*, the *Wardrobe*, and to all other places not exceeding the *Poultry*, *Cheapside*, or *Newgate-market*, for 13 hundred weight, not exceeding 18 hundred weight ———— } 1 10

And for *Sea-Coals* 14 pence the Load, every Load to be half a Chaldron; and for one hundred *Fagots* the like rate ———— } 1 2

And

And from all other Wharfs and Places between London-bridge and Temple-bar, to the same, and Places of like distance, for every Load of Coals 24 pence, every Load to be half a Chal-dron; and 100 Fagots the like rate. } s. d.
1 2

And to all Places Northward of the Poultry, Cheap-side, Newgate-market, Holbourn-bridge, and Fless street, for 14 hundred weight, not exceeding 18 hundred weight. } 2 2

And from Tower-street, Gracechurch-street, Fanchurch-street, Bishopsgate-street within, Cornhill, and other places of like distance, for every pack of 20 Cloths, for 6 bales of Cloths and Kerseys & bales of Pepper, 6 barrells of Indico, 3 hothheads of Cloves, and for other Goods not herein mentioned of like weight to the Water-side. } 1 4

And from Broadstreet, Lothbury, Old-Jury, Bassishaw, Coleman street, Ironmonger-lane, St. Lawrence-lane, Milk-street, Aldermanbury, Cheap-side, Wood-street, Friday street, Bread-street, and other Places of like distance to the Water-side, for the like weight. } 1 8

And for places nearer, or of less distance, the Parties hiring, and to be hired, are to make agreement answerable or proportionable to the Rates before-mentioned.

Orders for CARMEN.

THE Car-men for the foregoing Rates are to help load and unload their Cars.

If a Car-man exact more than these Rates, upon due proof before the Lord Mayor, or any two Justices of the Peace, he shall suffer Imprisonment for the space of 21 days without Bayl or Mainprife.

If any Merchant or other Person shall refuse to pay a Car-man for his Hire after these Rates, upon complaint made by the Car-man to the President of Christ's Hospital, or any Justice of the Peace, the President or Justice may oblige them to do it.

All Merchants, or others, may chuse what Car they please, except such as stand for Wharf-work, Tackle-work, Crane-work, Shop and Merchants Houses, which are to be taken in turn.

Every Car-man standing with his empty Car next to any Goods to be loaden, shall upon the first demand load the same, without bargaining for any other Wages than the Rates before-mentioned.

If a Merchant or other Person shall cause a Car-man to attend at his House, Shop, Ware-house, or Cellar, with his loaden Car above half an hour before he unloads, (the Car-man being willing to help unload the same) he shall pay the Car-man after the rate of 12 Pence for every hour after the first half hour for his Attendance.

Every Licensed Carman is to have a piece of Brass fixed upon his Car, upon which is to be set a certain Number, which Number (together with the Car-man's Name) is Registered in a Register kept in Christ's-Hospital; that so if any Car-man offends, it is but taking notice of the Number of his Car, and search for that in the said Register, and you will find his Name.

Every Car-man that shall not conform to these Rules, or work without a numbred piece of Brass fixed on his Car, may be suspended from his Employment.

Complaints of the Abuses of Car-men may be made every Tuesday, at two of the Clock in the Afternoon, to the Court sitting in Christ's-Hospital.

*The Rates or Fairs of WATER-MEN,
as they were set forth by the Lord Mayor and
Court of Aldermen.*

Exactly Calculated

FROM

One Pound to Ten Millions of
Money, to the thousandth
part of a Penny,

After the Rate of *Five*, *Six*,
Seven and *Eight*

Per Cent. per Annum.

By **Israel Falgate** at the
BANK of ENGLAND.

L O N D O N,

Printed, for *George Sawbridge* at the
Three Flower de Lucas in Little
Britain, MDC XCIX.

D I R E C T I O N S.

NOte, That by these *small Tables* is effected *all* that can be perform'd by those larger, which are calculated from day to day throughout the Year, and that to a *larger Sum* than any yet extant; no Tables hitherto published exceeding *ten thousand pound* for one Year, and these extending to above *twenty five thousand*: as appears manifestly, because, if you multiply 25000 by 365 days, the *Product* will amount to but 9125000, and these Tables are calculated up to *ten Millions*.

The Use whereof may be understood by observing this Rule;

Always to *multiply* the Sum by the *number of Days*, Or the *number of Days* by the *Sum*; and the *Interest* of the *Product* may be found in these Tables, as is apparent by an Example, *viz.*

To find the Interest of 5654 *l.* for 154 Days, at the rate of six *per Cent. per Ann.* multiply as before directed, and the *Product* will be 8 hundred and 70 thousand 7 hundred and 16 Pounds; And that Sum for one day requireth the same Interest as

5654

5654 *l.* doth for 154 days, which will appear by the Tables,

Under the Title.

	Of <i>Principal.</i>	Of <i>Interest.</i>
Against the {	800000 is <i>l.</i>	131 : 10 : 1 : 643
	70000 is <i>l.</i>	11 : 10 : 1 : 643
	700 is <i>l.</i>	---- : 2 : 3 : 616
	10 is <i>l.</i>	---- : -- : -- : 394
	6 is <i>l.</i>	---- : -- : -- : 236

870716 143 : 2 : 7 : 532

Which Sums being added sheweth, That 870716. *Principal* for 1 day at 6 per Cent. Requireth ———— *l.* 143 : 2 : 7 : $\frac{532}{1000}$ which is the true Interest of 5654 *l.* for 154 days.

And whereas there is a difference in the common way of computing Quarterly Interest by 3. 6. and 9. Months, and by single days: the same may be thus rectified, allowing each a true proportion of the year, being three hundred sixty five days, viz. 3 *Mon.* 91 days and $\frac{1}{4}$, 6 *Mon.* 182 days $\frac{1}{2}$, 9 *Mon.* 273 $\frac{3}{4}$. To either of which, if you add the remaining days that exceed 3. 6. or 9 *Months*, and multiply the Sum by the number of days, and add one $\frac{1}{4}$ half, or $\frac{3}{4}$, of the *Principal* Sum for one Q. $\frac{1}{2}$ or $\frac{3}{4}$ of a day to the said Product of whole days, the Interest being found in these Tables, as before directed, will agree with the common, tho' uncertain way of reckoning by 3. 6. or 9 *Months*; by reason they differ one from the other three days in 3 *Mon.* one 3 *Mon.* containing but 89, and others 92 days.

At 5 per Cent. for 1 day.
